

Ideation Phase

Brainstorm & Idea Prioritization Template

Date	01/10/2026
Team ID	SWTID-2026-2467
Project Name	Auto Ticket Classification using Flow Designer
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template:

Brainstorming creates an open setting where each team member can contribute to solving a problem. The group first welcomes a wide range of ideas, then builds on suggestions together to develop practical possibilities.

Use this template to guide group brainstorming, capture early concepts, and collaborate whether the team is together or meeting remotely.

Step 1: Gather the Team, Collaborate, and Choose a Problem Statement

Step 2: Generate, Record, and Group Ideas

Step-1: Team Gathering, Collaboration and Select the Problem Statement
Selected Problem Statement IT Support Staff need a consistent way to classify newly created incident tickets when the Category field is null, so that the ticket record can be updated according to the configured classification conditions. Project Focus Use Flow Designer conditions to evaluate the incident and update the Incident Workflow record.

Step 2: Generate, Record, and Group Ideas

Step 3: Prioritize the Ideas
